MEETINGS ARE THE KEY TO CURRENT AWARENESS

Information on research projects is revealed at meetings an average of fifteen months before it appears in the journals.

Each year, *World Meetings: Social & Behavioral Sciences, Education & Management* will give information in depth on more than 1,500 international, national, and regional meetings to be held throughout the world. Meetings are listed for a two year period and each issue is completely updated and cumulated. How do you read a microbook® volume?

Comfortably.

A book should be read. In an easy chair. At a table or desk. Almost anywhere that suits you.

The reason? A new lap reader. The Microbook 710. It has been specially designed for reading Microbook libraries, such as the Library of American Civilization. It takes a 3" x 5" Microbook fiche with up to 1,000 pages and clearly projects a page at a time in a 7" x 10" size. You can read in normal room light. Finding pages, scanning through a whole book, is easier than with a regular book.

Library Resources also offers a table reader with a bright 8½" x 12" screen. And a reader-printer on the way.

The Library of American Civilization is the first of any libraries to be offered in Microbook form. For storage, retrieval, check-out, and reading convenience, there is one book per fiche for most single-volume works.

The Library includes the most significant volumes retrospective source materials on Americana. It is fully referenced and cross-indexed with author, title, and subject catalogs plus a 2,000-page Biblioguide™ Index, or topical index. Fifteen sets of these come with each library. So, faculty members may have their personal set of the catalogs and the Biblioguide Index.

The Library of American Civilization comes complete and is ready to use the day you receive it. That's a comfort, too!

For complete information, and a copy of our new 8-page booklet, "The Microbook Library Series," please write to the address below.

The Statutes at Large

**Being a Collection of All the Laws of Virginia
from the First Session of the Legislature,
in the Year 1619**

By WILLIAM WALLER HENING. *Facsimile reprint.*

13 vols., \$175.00 the set

William Waller Hening's *Statutes at Large . . . of Virginia* is a compilation of all the acts passed by Virginia legislative assemblies from the meeting of the first assembly in 1619 through the year 1792. Long recognized as an important source for historical, legal, and genealogical research, these thirteen volumes continue to provide historians with excellent source material on the settlement and growth of our nation. *The Statutes at Large* afford, in Hening's words, "a rich treasure of information relative to the state of society among the first settlers; . . . the rise, progress and establishment of our civil institution; and generally such political events as afford a lesson to posterity of something worthy to be imitated and something to be shunned."

The Laws of Virginia

Being a Supplement to *The Statutes at Large*

Compiled by WAVERLY K. WINFREE. Editorial note by RANDOLPH W. CHURCH.
xl, 486 pp., index.

\$15.00

(Virginia State Library)

This new volume contains the text of the acts and ordinances passed by the General Assembly from 1700-1750 which Hening did not include in his collection of *Statutes*. It contains sixteen acts and ordinances not known to Hening, four printed in abbreviated form, and 161 acts and ordinances given by Hening as titles only. The laws were, for the most part, transcribed from photographic copies of the originals in the British Public Record Office. This volume is bound in similar fashion to the facsimile edition of Hening recently reprinted by the Press.

Southeastern Broad sides Before 1877

A Bibliography

Edited by RAY O. HUMMEL, JR. xii, 501 pp., frontis., illus., indexes.

\$10.00

(Virginia State Library)

This volume makes easily available the information contained in the thousands of Southeastern broadsides held by libraries in this region. The terminal date, 1876, was chosen so that broadsides of the Reconstruction period would be included. Although many of the broadsides deal with national affairs, the majority are concerned with state and local matters. Because of this it was decided that each state should have a separate list and index. The range of subjects covered is tremendous. Much of the information contained in the broadsides cannot be found elsewhere and will be of great value to all persons interested in the history of this region and of the individual states.

NON— DECENNIAL CENSUS REPORTS 1902-1945

The non-decennial census reports are rigorous statistical analyses of a broad range of subjects that are beyond the scope of the general decennial census. This collection includes all reports from the first issued (1902) to 1945. On microfiche, it is composed of over 150,000 pages of data in the topics listed at left.

The reports are accompanied by a full bibliography, the *Catalog of United States Census Publications, 1790-1945*, prepared by Henry J. Dubester for the Library of Congress in 1950 and included with this collection both on microfiche and in full-size printed form. The *Catalog* includes an annotated list of reports with subject indexing. Each report is given an identifying number, and, for ease of retrieval, these numbers will also appear on the microfiche headings along with short titles and descriptions.

**INTRODUCING THE MOST
COMPREHENSIVE BOOK
EVER PUBLISHED
ON BOOKS THAT AREN'T
BEING PUBLISHED.**

Newly revised for 1971, the 664-page Xerox Out-of-Print Book Catalog is substantially more comprehensive than the nearest contender — the 490-page 1970 Xerox Catalog.

This year's version lists 45,000 titles, making us again the largest out-of-print book publisher in the world.

Missing from this otherwise complete catalog are some 10,000 other titles that we'll publish this year. They're not listed for an excellent reason: we don't know what they are yet.

Every year, in response to thousands of requests, we track down out-of-print books, put them on microfilm, and publish them xerographically. In quantities as small or large as requested.

That way, librarians and scholars end up with books they might not otherwise have, and we end up with more titles in our catalog. (To keep you up-to-date on these new findings, we also publish *The O-P Bookfinder* as a monthly supplement.)

Write us for your copy, free of charge. If you're ever looking for an out-of-print title, chances are good you'll find it there.

But if you can't find it in our catalog, you can always consult a more comprehensive source.

A XEROX COMPANY

XEROX.

"Fundamentally, the wants of any library's users are easily stated. They want what they want—now." If you sometimes have trouble meeting these wants, here is a little help from a friend

Melcher on Acquisition

Daniel Melcher, who spent twenty-one years with the R. R. Bowker Company (where he initiated *Books in Print*, etc.) has been a leading figure in the publishing world and a lifelong borrower of books from libraries. From these two points of view, he applies his common sense, wit, business acumen, and knowledge of all aspects of publishing, to the problems of library acquisition. He offers no pre-packaged solutions but has many practical suggestions for ways to dust off time-hallowed procedures, tell good suppliers from bad, cope with the bid process, fight city hall and L.C. cards, keep computers in their place, buy serials and paperbacks, and much, much more. Certainly one of the most provocative and entertaining books on this subject—and one of the most helpful.

Ask any bookman. The big ones. He'll give you that unkempt smile while quoting a title from another's catalogue. He may even drop his billfold. His answer? Sherrinford got there first. Trying to get around the dictum and pressure in making acquisitions to, or completing special collections? Just write or cable Sherrinford. He won't place you on his mailing-list. He won't forward you catalogues or bibliographically pristine broadsides for all to see, and publicize. Through private and unprecedented offerings of unpublished material only, Sherrinford will make an open and shut case of your special collecting requirements. And he'll quote the unpublished item you want, catalogues in advance of any book dealer. Scholarly legwork. That's our bag. Sherrinford will get farther on a farthing than any establishment man. A fazenda in the back country of Sao Paulo. Sherrinford has brought back the last known papers of Stefan Zweig. A manor, on a loch in Scotland. Sherrinford has an option on bundles of unpublished letters and many firsts, with a provenance to Tobias Smollett. With Sherrinford, quality is not just a name on a catalogue cover. Quality is the unpublished, and this is our only criteria. A letter, a holograph manuscript, a correspondence too precious to be offered on a wholesale basis. Through Sherrinford, the realization of your requirements becomes a well-calculated probability. Follow the treadmarks of Sherrinford. Get his number. His devises are beyond the imagination, means or ken of any book dealer. The hungriest and fattest. Sherrinford would rather be a trifle cool, calm and collected, working in the shadows, for you. Sherrinford would never inflate his prices by inflating his ego. He's not an all cap name across the page of a scholarly publication. Our man directs his PR with an abundance of stealth and good taste, in the right direction. Where you get the most out of it. He'll play baccara at Monte Carlo, with Lord B----- there's more than casino money and conversation here. The unpublished papers of one of Byron's terribly distraught lovers. Cable or write to Sherrinford now. Tell him about the material you want. He won't ring up a dealer in Edinburgh, hoping you haven't already been solicited. We'll go out into the field for you. Far a'field of any catalogue. Brescia, Benares, Cyprus, Dieppe, Gerona, Killarney, Leiden, Monaco. Sherrinford will look after your scholarly interests with regular reports and communiques directly from the field. Sherlock & Co., Ltd., 777 Silver Spur Road, Suite 132, Rolling Hills Estates, California. Cable address: Sherrinford.

GALE'S 152-VOLUME CUMULATION OF LC/NUC 1942-62 AUTHOR LISTS IS NOW READY FOR IMMEDIATE USE AND SAVINGS!

All 152 volumes in Gale's *LC-NUC Master Cumulation* have now been published and are ready for immediate shipment.

Librarians who used the set as it was being published have enthusiastically attested to its time-saving features and the quality of the editorial work, and those who have delayed ordering until all the volumes were ready may now buy and use the cumulation with complete confidence in its bibliographic worth.

Users report that the cumulation significantly streamlines processing procedures and drastically reduces search time. Many have praised the work for such unique qualities as its value as a reclassification tool, its revised and improved arrangement, its added cross references and notes, and its usefulness in establishing authors and assigning subject headings.

The value of the cumulation is much greater than merely the sum of the value of the individual supplements because the cumulation represents thousands of professional judgements which solved problems of variant practices and inconsistencies that plague users of the four separate supplements. Thus, owners of the separate supplements should seriously consider the purchase of the vastly superior cumulation.

Gale's *Library of Congress and National Union Catalog Author Lists, 1942-1962: A Master Cumulation*, embraces these four supplements to *A Catalog of Books Represented by Library of Congress Printed Cards*:

- * *Catalog of Books Represented by Library of Congress Printed Cards—Supplement (1942-1947)*
